SHRIVENHAM, BERKS BURIAL REGISTERS

**1575-1640; 1641-1691; 1653-1658;
1695-1697; 1678-1760; 1691-1972**

All the registers were transcribed. In the case of the overlapping registers they were compared and the missing or alternatives entries have been noted and shown in the transcription.

Shrivenham Parish, in the County of Berkshire until 1974 and thereafter in Oxfordshire, consisted of the villages of Shrivenham, Watchfield and Bourton. Watchfield had its own registers from 1858 and Bourton registers began in 1860 (see other transcriptions. However entries from both these parishes are to be found in this register.

ACKNOWLEDGEMENTS

Thanks go to Shrivenham P. C. C; the vicar of Shrivenham and Berkshire Record Office for permission to transcribe these registers.
